

KIRAN K. MUNGEKAR

FRESHER

SUMMARY

Seeking a position in life to utilize my skills & abilities & achieve professional growth while being flexible & also improve my skills to give my best for the company best.

EDUCATION

Master of Engineering: Information Technology | Thakur College of Engineering & Technology. – Mumbai

- Graduate with 9.56 GPA

Bachelor of Engineering: Information Technology | St. John College of Engineering & Management – Mumbai

- Graduated with 7.87 GPA

Diploma: Computer Technology | S. V. P. Polytechnic. – Mumbai

- Graduated with 65.74%

SSC | Utkarsha Vidyalaya. – Mumbai

- Graduated with 72.00%

PROJECTS

1. Detect COVID-19 in X-ray by using Deep Learning — Developing an automated analysis system to save medical professionals valuable time. With the help of deep learning CNN & ImageNet VGG16, make a model to classify between normal x-ray & COVID-19 x-ray.

2. Car for Smart Cities - Smart Car — Created a model of a self-driving car to understand machine learning, CNN, OpenCV, working of components By using Python & Raspberry Pi as a mini-computer.

3. Diabetic Retinopathy Detection using CNN — Created a model to classify diabetic retinopathy eyes to understand machine learning, CNN, OpenCV by using Python & predict No DR, Mild, Moderate, Severe, Proliferative DR with GUI.

4. Home Surveillance — Created a model for convenience & to keep home safe from Intruder. This model provides notification via SMS & email & stores images of Intruder on firebase for a piece of evidence.

PERSONAL DETAILS

Address:

Virar, MH, 401303.

Phone:

+91 - 8108412112
